# Pharmaceutical, Biotechnology and Chemical Inventions

## World Protection and Exploitation

Edited by **Duncan Bucknell**, CEO & IP Strategist,  
Think IP Strategy

This is the only book to provide extensive comparative analysis of the law and practice relating to pharmaceuticals and biotechnology in 12 key jurisdictions from Europe, North America, China, India and the Asia Pacific.

### UNIQUE GLOBAL FOCUS

Written by a handpicked team of expert practitioners from the US, Japan, Canada, Australia, India, China, the UK, Germany, the Netherlands, France and Italy, readers can be reassured that the best local knowledge is on offer from across the globe. For the first time, readers will be able to compare the law and practice of pharmaceutical, biotechnology and chemical inventions on a truly international basis.

### TOPIC BY TOPIC APPROACH FACILITATES EASIER COMPARISON

This book is the only title to present the subject matter horizontally rather than by country. This allows readers to move easily between country practices on a given topic and operates as a genuinely comparative tool. The first two Parts offer an introduction to differences between jurisdictions and an overview of some of the key concepts in patent law. The remaining 13 Parts each contain a comparative introduction, which gives the reader a summary of the variances in the laws and procedure of different regimes, followed by extensive side-by-side analysis of those regimes, incorporating tables and flow-charts which illustrate the key legal concepts.

### INVALUABLE FOR

- IP in-house counsel, Patent agents, patent attorneys, solicitors and barristers working in patents and intellectual property law worldwide.
- Scientists, researchers and managers in the chemicals, pharmaceuticals and biotechnology industries.

## EXPLOIT AND PROTECT YOUR IP RIGHTS MORE SUCCESSFULLY

This book highlights all the special issues arising in obtaining, commercialising, enforcing or attacking intellectual property rights (including protection of regulatory data) in the pharmaceutical, biotechnology and chemical industries across the world's key jurisdictions. Practical insight on patent procedure enables patent owners, licensors, licensees, and those acting on behalf of them to make fully informed decisions regarding protection and exploitation of patent rights.

### CONTENTS

- Part A. Introduction and Overview
  - Part B. Fundamental Concepts
  - Part C. Obtaining patent rights
  - Part D. The period of the monopoly
  - Part E. Patent validity
  - Part F. Amendment
  - Part G. Invalidation proceedings and strategy
  - Part H. Infringement
  - Part I. Defences to infringement
  - Part J. Patent litigation strategies
  - Part K. Interaction between regulatory approval and patents
  - Part L. Data exclusivity
  - Part M. Competition law
  - Part N. Other IP rights
  - Part O. Commercial arrangements
- Tables and Figures

### MEET THE AUTHOR

Duncan is an IP Strategist, lawyer, patent attorney and a veterinarian.

Duncan is founder and CEO of Think IP Strategy, a global intellectual property strategy firm with team members across the US, Europe, India, China, Singapore and Australia. The firm's blog 'IP Think Tank' is one of the blogosphere's most popular sources of regular IP strategy insights.

## CONTRIBUTORS TO PHARMACEUTICAL, BIOTECHNOLOGY AND CHEMICAL INVENTIONS

**Pravin Anand**, *Anund and Anund, India*  
**John Bateman**, *Kenyon & Kenyon, USA*  
**Susan Beaubien**, *Moffat & Co, Macera & Jarzyna LLP, Canada*  
**Theo Bodewig**, *Humboldt University, Germany (Consultant Editor)*  
**Simon Cohen**, *Taylor Wessing, UK*  
**Wayne Condon**, *Griffith Hack, Australia*  
**Marina Couste**, *Howrey LLP, France*  
**Robert A. Dormer**, *Hyman, Phelps & McNamara, P.C., United States*  
**Atsushi Hakoda**, *Nakamura & Partners, Japan*  
**Reuben E. Jacob**, *R. G. C. Jenkins, UK*  
**Fabrizio Jacobacci**, *Studio Legale Jacobacci & Associati, Italy*  
**Kurt R. Karst**, *Hyman, Phelps & McNamara, P.C., United States*
